

ESET Family Security Pack

Ultimate PC, Mac and Android Internet security in one easy license

Install any combination of these products on up to five devices.

ESET Smart Security 5

Built on the award-winning ThreatSense antivirus and antispam engine, ESET Smart Security 5 includes antispam and an intelligent firewall to give you and your family a complete defense.

ESET NOD32 Antivirus 5

Intercept and eliminate viruses, worms, trojans, spyware and other Internet threats. Fast, light and proactive, the award-winning ESET NOD32 Antivirus 5 is essential protection for your PC.

ESET Cybersecurity for Mac

Make your Mac even safer. Powered by our advanced ThreatSense® antivirus scanning engine, ESET Cybersecurity for Mac is uniquely designed to work with the Mac OS X to provide the strongest protection possible.

ESET Mobile Security

Built using our award-winning NOD32 technology, ESET Mobile Security delivers complete security for your Android smartphone or tablet® against cyber threats, spam and security breaches while you are on-the-go.

ESET Family Security Pack Features

Antivirus eliminates Windows, Mac, Android and Linux viruses, worms, trojans, rootkits and other malware.

Antispyware protects your online privacy and identity.

Host-Based Intrusion Prevention System (HIPS) blocks unauthorized changes to programs.

Cloud-Enhanced Whitelisting enables faster, more accurate malware detection.

Smart Detection identifies viruses and cyber threats that conventional signature-based antivirus products don't catch with heuristic ThreatSense® technology.

Removable Media Control prevents malware infection from USB flash drives, CDs and DVDs; enables blocking by device ID.

Antirootkit detects and removes malware that hides from the operating system.

Antispam blocks unwanted emails and images.

Security Audit with built-in Task Manager monitors all vital phone functions, including battery life, free disk space, running processes, Bluetooth, and device visibility. Take action on the spot, including terminating any processes that increase your security risk.

Gamer Mode suspends pop-up notifications, scanning and scheduled tasks while playing.

Parental Controls restrict access to websites by specific category or individual URL. Protects your child from unwanted incoming and outgoing calls and text messages.

Internet Security Training teaches you tips and techniques to make your online experience even safer.

SysInspector is a powerful diagnostic tool for in-depth analysis of the operating system, including running processes, registry content, startup items and network connections.

SysRescue helps you to create a bootable disk of ESET Smart Security 5 so you can scan and clean an infected system and reboot afterwards.

Uninstall Password Protection prevents unauthorized removal.

Graphs and Statistics enables you to monitor network communication (uploads/downloads), disk operations, as well as virus and antispam statistics.

Intelligent Firewall defends against remote attacks with technology that adapts.

Powerful antitheft features let you control your smartphone remotely, preventing your private data from falling into the wrong hands. By sending a SMS, you can remotely lock, wipe or find your lost or stolen phone.

System requirements: Runs on any system with Microsoft® Windows® 7, Vista, XP, 2000 or Home Server, Mac OS X 10.7.x (Lion), Mac OS X 10.6.x (Snow Leopard), Mac OS X 10.5.x (Leopard), Android 2.0, 2.1, 2.2 and 2.3 and requires internet connection.

Rooted phones are not supported. ESET Mobile Security is optimized for smartphones and certain functionality may be lost on Android tablets.

Why ESET?

- ✓ Protecting over 100 million users.
- ✓ Presence in more than 180 countries worldwide.
- ✓ Over 20 years of pioneering the computer security industry.

West Coast Labs certification

ESET holds Checkmark certifications in both detection and removal of infections.

Virus Bulletin VB100 awards

ESET NOD32 holds the world record for Virus Bulletin VB100 Awards, never having missed detecting an "In-the-Wild" worm or virus.

ICSA Labs certification

ESET is the first and only company in the world with ICSA certification for both Windows OS and Mac OS X.

AV Comparatives awards

ESET has more Advanced+ awards in retrospective tests than any other antivirus vendor.

Proven Internet security for Windows, Mac and Android in one easy license

ESET Family Security Pack keeps your family safe from malware when you work, play or go online. We deliver protection for Windows-based PCs, Macs and Android smartphones/tablets*, eliminating the need to buy separate security products for each of your computers. Conveniently manage all your home devices under one license.

Tune-in behaviors and turn-on control

Our Parental Controls shield your children from inappropriate web content by blocking access to individual websites and predefined website categories. ESET Mobile Security for Android's Call Intercept and SMS/MMS Antispam features protect your child from unwanted incoming and outgoing calls and text messages, and the phone location feature helps you find your child when the phone is in his/her

Block unwanted emails, SMS and calls

Our powerful antispam feature keeps your inbox clear of spam by filtering emails precisely and includes log capabilities. The powerful firewall defends your computer against remote attacks with robust traffic filtering, including customized profiles with specific rules for different network zones.

Surf safer with our complimentary security training

Installing security software is the first step toward cybersecurity. The second is educating yourself about safe Internet practices. That's why ESET Cybersecurity Training is complimentary with all ESET home products. ESET Cybersecurity Training uses real-world cyber crime scenarios and gives you essential safety tips to make your online experience even safer.

Secure your mobile life

Your phone can get infected through several avenues: by using an infected Android app, by browsing a web page with hidden malicious code, by opening an infected email, etc. ESET Mobile Security for Android protects against malicious apps, viruses and other malware theft while preserving performance and battery life.

Refresh your online experience

With one of the smallest program file sizes of any Internet security software, a more intuitive interface and a smarter alert system, we offer a simpler, more easily managed digital experience for you.

Conserve your laptop battery

The automatic energy-sipping feature conserves power by postponing scheduled tasks when your laptop is running on battery power.

Protect your phone against physical loss or theft

ESET Mobile Security for Android's antitheft features let you control your smartphone remotely, preventing your private data from falling into the wrong hands. You can remotely lock, wipe or find your lost or stolen phone by sending a SMS. The SIM Matching feature alerts you if unauthorized SIM card is inserted into your phone by sending a SMS to a trusted number.

Share confidently

Not all computer threats come through the Internet; Removable Media Control protects you from potentially infected files exchanged through USB flash drives, CDs and DVDs.
